

Dr. Sonal is a dedicated academician and researcher with a background in experimental physics. She holds a Ph.D in Physics from Kurukshetra University, Kurukshetra awarded in 2020. Her primary research interests lie in the field of nanomaterials, metallic nanoparticles, ion-beam induced material modification, plasmonic nanostructures and to study their morphological, structural, optical and electrical behaviour. She has authored and co-authored several research publications in peer-reviewed journals and conference proceedings. Alongside research she has substantial teaching experience in higher education. She has qualified National Eligibility Test in Physics (2014) and GATE 2014, 2015 and 2017
